**DETAILED ACTION**

***Claim Rejections - 35 USC § 103***

1. Claims 1-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Maul et al in view of Shirk et al as discussed in paragraph 2 of the last office action.
2. Applicant's arguments filed 4/29/02 have been fully considered but they are not persuasive.

In response to applicant's argument that there is no suggestion to combine the references, the examiner recognizes that obviousness can only be established by combining or modifying the teachings of the prior art to produce the claimed invention where there is some teaching, suggestion, or motivation to do so found either in the references themselves or in the knowledge generally available to one of ordinary skill in the art. See *In re Fine*, 837 F.2d 1071, 5 USPQ2d 1596 (Fed. Cir. 1988) and *In re Jones*, 958 F.2d 347, 21 USPQ2d 1941 (Fed. Cir. 1992). In this case, the secondary reference Shirk et al is being used to teach the concept of using retaining means to provide for stability. The actual elements being stabilized is a matter of design choice. The examiner also notes that the test for obviousness is not whether the features of a secondary reference may be bodily incorporated into the structure of the primary reference; nor is it that the claimed invention must be expressly suggested in any one or all of the references. Rather, the test is what the combined teachings of the references would have suggested to those of ordinary skill in the art. See *In re Keller*, 642 F.2d 413, 208 USPQ 871 (CCPA 1981).

2. K. 1A  
In response to applicant's argument regarding the single piston movement, the examiner contends that Maul does show a single piston mechanism as shown in figure 21 with piston 10. In addition, the examiner disagrees with applicant's characterization of elements 30, 40 as being pistons. Element 30 is characterized as a folding ram while element 40 is characterized as a positioning device.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
